

Statoil STEM Camps University of Houston

Robotics: Students will learn about design/programming to complete challenges building robots

Number Ninjas: Students will fall in love with math and be exposed to the awesome world of numbers

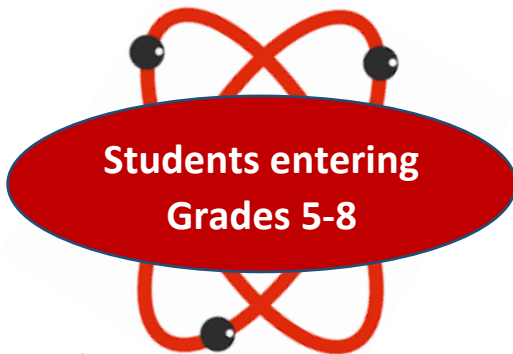

Cougar Inventors: Students will use the engineering design process and everyday objects to complete the tasks

Crime Scene Investigators: Students will analyze evidence found at crime scenes to solve crimes

Fun with C++: Students will learn to program in C++ with fun mini challenges. This is for students with a basic understanding of any programming language.

Camp Personnel:
